

# UCLA Neurosurgery Connections

## 2018 Gratitude & Year in Review

Dear Friends and Family,

For over 20 consecutive years, U.S. News & World Report has recognized UCLA Neurosurgery as one of the top neurosurgery programs in the nation. To us, rankings are an indication of something greater: a united community of compassionate, creative, generous, earnest and motivated individuals working to provide world-class patient care, innovative translational research, and education of future leaders. ---

### Faculty Spotlight

#### **Won Kim, MD**

Dr. Kim completed his neurosurgical residency training at UCLA with a fellowship in stereotactic and functional neurosurgery. His clinical interests include the treatment of primary and metastatic brain tumors deep within the brain using a wide variety of surgical modalities to best suit each individual patient and tumor type. ### Program Spotlight

#### **UCLA Pituitary and Skull Base Tumor Program**

At the Pituitary Program at UCLA, our professional, experienced health care team is dedicated to managing your pituitary tumor with advanced medical techniques along with compassion and understanding. Our multidisciplinary medical team treats a high volume of cases every year, making us one of the most experienced pituitary tumor treatment centers in the nation. [Learn more »](#)

## Annual UCLA Symposium on Neurotechnology

### 2018 UCLA Symposium on Neurotechnology

The Annual UCLA Symposium on Neurotechnology gathers leading-edge scientists, engineers and medical professionals at UCLA to foster understanding and development of neurotechnology, the new frontier in brain science. [Learn more and watch videos »](#)
