

### UCLA Neurosurgery's New Location

The Edie & Lew Wasserman Building, a new landmark research and patient-care facility at UCLA, is the new home of UCLA Neurosurgery. The new clinic location boasts six exam rooms, two consultation suites and spaces for multidisciplinary teams of physicians to collaborate. [Learn more »](#)

### Scientific American Highlights Facial Recognition Study

Scientific American spotlighted a study supervised by Dr. Itzhak Fried, professor of neurosurgery and psychiatry at the David Geffen School of Medicine at UCLA that discovered individual neurons fire in response only to images of specific people whose face the patient recognized. [Read more »](#)

### South Bay Paper Profiles Teen with Epilepsy

The Daily Breeze published a profile of a teen who had one-eighth of her brain removed at Ronald Reagan UCLA Medical Center to treat her epileptic seizures. She delivered a patient testimonial at the 2014 UCLA Department of Neurosurgery's Visionary Ball. [Read more »](#)

### Limiting Rest Is Found to Help Young Concussion Patients

Dr. Christopher Giza, director of the UCLA Steve Tisch BrainSPORT Program, commented in a New York Times article that reported on a new study that found limiting rest to one or two days is more beneficial to young concussion patients rather than a longer period of five days. [Read more »](#)

### **New Anticoagulants vs. Warfin Risks and Benefits**

Dr. Paul Vespa comments on a new *JAMA Neurology* analysis weighing the findings of a study of anticoagulants in patients with atrial fibrillation. [Learn more »](#)
