Season's Greetings from UCLA Neurosurgery

In 2014, the UCLA Department of Neurosurgery entered an exciting chapter in the realization of its Global Neurosurgical Center, a comprehensive neurosurgery campus. Blending the most advanced technology and sophisticated expertise, the new facility features a stunning patient clinic, collaborative faculty hub and cutting-edge training pavilion that's poised to invent the future of neurosurgery. Our faculty and staff wish you and your loved ones a healthy and joyous holiday season.

UCLA Neurosurgery's New Location

The Edie & Lew Wasserman Building, a new landmark research and patient-care facility at UCLA, is the new home of UCLA Neurosurgery. The new clinic location boasts six exam rooms, two consultation suites and spaces for multidisciplinary teams of physicians to collaborate. Learn more »

UCLA Donor is One of LA's Top Philanthropist

LA Confidential magazine spotlighted Hollywood film producer and New York Giants' co-owner Steve Tisch, whose $10 million donation launched the UCLA Steve Tisch BrainSPORT Program, in a recent article showcasing Los Angeles' top philanthropists. Read more »

Reconnecting Patients to Life - Visionary Ball 2014

The Visionary Ball, which took place on October 30, raised critical funds and awareness in support of our patients who face the most complex neurological disorders of this era. This year's honorees included: Dr. Patrick Soon-Shinog; Johnathan and Susan Dolgen; Elizabeth Goldhirsh-Yellin; and Kelsey Grammer. View photos and read more »
Jennifer's Story
Jennifer Reilly was 28 years old when she began experiencing some odd symptoms. Half of her left hand went numb. She could move her fingers, but she couldn't feel anything on the outer part of that hand. Because she was so young, Reilly assumed it was nothing. She was wrong. Read more of Jennifer's Story »

Neurocritical Care in the ICU of the Future
This two-day conference is designed to discuss innovative strategies for the care of neurological emergencies and neurocritical care in the ICU of the future. Speakers will address controversies in neurocritical care and neurocritical care and nursing strategies. Learn more and register »
